Village Dental Group

SMS Recall Campaign Report

April 8, 2026 — Post-Mortem & Path Forward

Generated: April 14, 2026

Executive Summary

- 3,952 total patients across 3 locations were loaded into the recall system.
- On April 8, 2026, the system sent 2,206 SMS messages to 1,203 unique patients — the full list was contacted rather than the intended Village Dental test batch only.
- 32 patients hard opted out.
- 2,718 patients across all locations have never been contacted and remain available for outreach.

Campaign Coverage — All Locations

Location	Total on List	Texted Apr 8	Uncontacted	Opted Out	Available
32 Cottage Dental Care	2,554	785	1,769	23	1,746
Village Dental	1,002	294	708	6	702
32 Western Springs Dentistry	396	123	273	3	270
TOTAL	**3,952**	**1,202**	**2,750**	**32**	**2,718**

Message Volume & Delivery

Metric	Value
Total SMS messages sent	2,206
Unique patients reached	1,203
Avg messages per patient	1.8
Max messages to one patient	6
Delivery status	"Sent" — toll-free numbers do not return carrier receipts
Failed / Undelivered	0

Reply Summary — All Locations

Location	Replies	Positive	Negative	Out of Area	Confused
32 Cottage Dental Care	18	4	6	2	6
Village Dental	3	0	3	0	0
32 Western Springs Dentistry	1	0	1	0	0
TOTAL	**22**	**4**	**10**	**2**	**6**

Overall reply rate: 1.8% (22 replies / 1,203 patients reached)

Hard Opt-Outs Generated

Location	Opt-Outs
32 Cottage Dental Care	23
Village Dental	6
32 Western Springs Dentistry	3
TOTAL	**32**

Note: Opt-outs are permanent and cannot be reversed programmatically.

Village Dental — Test Location Deep Dive

Village Dental was designated as the controlled test location for this campaign. The data below reflects performance specific to this practice.

Overview

Metric	Count
Total patients on list	1,002
Unique patients texted Apr 8	294
Total messages sent to location	540
Hard opt-outs	6
Never contacted (available)	708

Overdue Breakdown — Patients Texted

Overdue Bucket	Patients Texted	% of Contacted
Under 6 months	77	26.2%
6–12 months overdue	97	33.0%
12–24 months overdue	110	37.4%
24+ months overdue	10	3.4%

Key insight: 26% of patients texted were under 6 months overdue — likely driving confused and negative replies. Next campaign should filter to 6+ months only.

Replies Received

Reply	Sentiment
No thank you	Negative
I'm around but never going back. [cleaning complaint]	Negative — Flag for Dr. Philip
I live in TN now, Thk u	Out of area (opted out)
[4th reply not logged to Village Dental]	—

0 positive replies from Village Dental. The 12–24 month overdue segment (110 patients) had 1 reply — moved to Tennessee. 109 patients in this segment remain unreplied and in play.

Action Items

- Manually opt out Iwona Becwar (replied "No thank you" — opt-out not yet set in system)
- Flag Lorant Bartha complaint to Dr. Philip / office manager for awareness
- 109 unreplied patients in the 12–24 month bucket are the highest-priority targets for the next send

Path Forward

Village Dental Next Campaign Pool

Segment	Count	Notes
Never contacted	702	No prior outreach — full 3-message sequence
Texted Apr 8, follow-ups pending	502	Day 0 sent, Day 1 + Day 3 not yet sent
Total sendable	~1,204	Before overdue filtering
Recommended send (6+ mo overdue only)	~360	Removes noise from under-6-month patients

Recommended Approach

- Filter next launch to 6+ months overdue only — this targets the highest-intent patients and reduces confused/negative replies
- Rate limit strictly to 1 message per second — no burst sending
- Start with Village Dental only before expanding to other locations
- All crons (RECALL_CRON_ENABLED, SMS_LIVE_MODE) remain off until explicitly re-enabled with confirmed patient count
